Walk Summary:	<p>The Larapinta walk is well known to many bushwalkers who like to challenge themselves to distance hiking and is a beautiful showcase of Australia's Red Centre. The abundant flora at this time of year and milder weather make the hike so interesting, and the privilege of walking the ancient tracks of Arrernte people is inspiring.</p> <p>Those already booked in are looking forward to safely completing this challenging walk. It is a full pack carry, but we will have food drops arranged by a local company.</p>
