Walk Summary:	<p>The walk follows the old tramway which is a fascinating endeavour of early engineering and remnants of a bygone era can still be seen along this winding walk through lush bush. Several bridges give access to the course of the creek which attracts and retains native flora and fauna along this strip of rich forest. This is, without doubt, one of the most enjoyable day walks in our region. Lunch will be taken at the Quarry where the stone was mined for the rock wall at Lakes Entrance, before our return to the Log Crossing Picnic Area.</p> <p style="text-align: center;">Please register with the Walk Leader before the day of the walk.</p>
