Walk Summary:	<p>The East Tyers Walking Track which follows old timber tram lines from Tyers Junction has been cleared by BTAC and now being maintained by SBWC. This is a chance to check it out and to explore some relics of the timber milling that occurred in the area. The bush is very varied with lots of tree ferns along the river.</p> <p>We will car pool from Tyers to the Caringal Scout Camp and walk from there following the East Tyers River upstream. There are a number of log crossings and one crossing of the river where there is no bridge. Depending on the flow in the river we may get our feet wet. We will check out two old timber mill sites and then make our way up to Monettes Mill Road climbing approx 100m over 1km. We then follow Monettes Mill Road back to the Scout Camp.</p>
