Walk Summary:	<p>Note. this area is only accessible by four wheel drive. Those who don't have a four wheel drive will need to organise a lift.</p> <p>After meeting at Lindenow we will drive for approximately 2 hrs to near the Wentworth River north of Tabberabbera . The walk commences with a good steep downhill walk along an old rough vehicle track before entering a large flat on the Wentworth River. If water levels permit we will cross the river and visit the site of a home site dating back to the 1880's. We will then cross back over the river and pickup an old bridle trail which clings onto the steep hills above the river. At the end of the trail we will take another vehicle track (steep uphill) which will lead us back to our vehicles.</p> <p>Although this is a relatively short walk it has a lot to offer, history, surprises, good views and its own physical challenges.</p>
